Piacasso has always been exclusively dedicated to spearfishing products, since its creation in 1986.

The high quality, durability and innovations of the products, made Piacasso the most awarded in the World and European Championships of the last two decades!

Champions like Jose Amengual, Pedro Carbonell, Jose Viña, Alberto March and Rui Torres, were all “born” using Piacasso equipment.

Since Carlos Osório took the company in 2008, Piacasso launched into the market several innovative and extremely useful spearfishing products, that demonstrate his more than 20 years of competition experience at the most high level, as Carlos was 2005 European Champion and 2006 World Champion with the Portuguese national team.

Piacasso is now offering the most complete catalogue in the market exclusively dedicated to the spearfisherman of today, much more demanding, with technical knowledge and avid for high quality equipment.

With its own factory and local production in Sesimbra - Portugal, Piacasso is proud to be the only mass consumer brand exclusively dedicated to spearfishing that produces almost its entire catalogue internally, in the European Union.

This “small big” difference makes Piacasso the world leader in high quality production and liability.

Extremely proud of our history and focused on our future, we are sure that whenever you think of spearfishing, you will always think of Piacasso.
